MADE IN **ITALY**

Our Made in Italy heritage represents decades of manufacturing expertise in Italian design and production, embodied in our collections such as La Dolce Vita. From the lakes of the north to the historic ceramic heartlands near Rome, many of our products are shaped by craftsmanship honed through longstanding tradition, reflecting the highest standards of quality and detail.

Made in Italy craftsmanship sits at the heart of our brassware offer, bringing precision, material expertise and refined detailing to mixers and showering. Produced to exacting BAGNODESIGN specifications by specialist Italian manufacturers, each piece reflects longstanding manufacturing know-how alongside the demands of contemporary specification. These values come together in La Dolce Vita, uniting our Made in Italy mixers in one considered collection.

FINISHING TOUCHES

The **appeal of coloured brassware** is widespread among designers who seek new and innovative finishes to create **distinctive looks** in their designs.

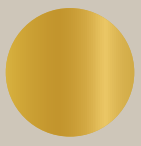

Finish can change the character of a bathroom, giving designers room to create either crisp continuity or a warmer contrast. Chrome, Brushed Nickel and Brushed Stainless Steel keep the look clean and architectural, while Soft Bronze, PVD Oyster and PVD Soft Burgundy introduce richer, warmer tones. Armour offers a more expressive route, with Toko Flavours available in Cocoa, Truffle, Sage, Blueberry, Mandarin and Lip Gloss. Used as an accent or repeated across the scheme, these finishes can be picked up in stone, tile and surrounding materials, giving the space a more individual, well-resolved character.

*Soft Bronze is a semi-living finish and may change over time, resulting in slight variations.

Redefining **luxury**, one bathroom at a time.

Good brassware can pull a bathroom together, bringing form, finish and function together so they feel of a piece. Across BAGNODESIGN's European range, basin, bath and shower brassware spans pared-back geometry, softer curves, tactile fluting and expressive colour. Chrome and Brushed Nickel sit alongside warmer PVD finishes and Armour colours, giving designers room to work tonally or introduce a sharper contrast. Selected coordinating accessories allow those choices to be carried through the room, creating continuity from one fitting to the next.

ARMOUR COLLECTION

CRAFTED TO INSPIRE, BUILT TO LAST.

A new evolution of bathroom finish. Developed to withstand the test of time. The Armour Coated finish is a highly advanced coating applied at our in-house production facility in Dubai. Originally developed for heavy-duty products in military, aerospace, and automotive industries, where durable materials and finishes are essential, Armour Coating allows for aspirational finishes that are built to last.

10-Year Guarantee - This is backed by the assurance of laboratory tests which include salt spray (corrosion) testing, chemical resistance testing and adhesion testing, as well as rigorous real-life durability testing.

CARLYLE

Drawing on the neatly tailored bathrooms of five star hotels, Carlyle takes a more formal approach to brassware, with balanced proportions and softly scalloped edges lending definition without excess. The detail continues across basin, bath and shower mixers, joined by hand showers and coordinating accessories. Its five finishes give the design quite different readings. Chrome and Brushed Nickel feel cool and precise, Soft Bronze and PVD Oyster soften the palette, while Anthracite gives the fittings a stronger architectural outline. Repeated across each element, the same visual cues give the collection a composed quality that feels equally at home in hospitality interiors and polished residential bathrooms.

FONTEYN

Taking its cue from the polished interiors of the 1940s and 50s, then moving into the bolder mood of the 1960s, Fonteyn gives transitional design a distinctly sculptural character. Soft curves and fine detailing run through basin, bidet, bath and shower mixers, with hand showers and coordinating accessories carrying the look across the room. The five finishes each take the collection in a slightly different direction. Chrome and Brushed Nickel keep it crisp, Soft Bronze and PVD Oyster bring a warmer cast, while Armour Cocoa lends a deeper, more contemporary note. The result sits comfortably between periods, drawing on mid century references without feeling tied to them, and gives designers plenty of scope to place Fonteyn in both classic and contemporary interiors.

GINZA

Tokyo's Ginza district and Japanese boutique hotel interiors sit behind this distinctly urban approach to bathroom brassware. Spare geometric forms give the mixers their identity, complemented by Chrome, Brushed Nickel, Armour Truffle and Armour Lip Gloss. Ginza Junior takes colour in another direction through Baby Pink and Misty Grey, developed for children's bathrooms. Selected accessories repeat key finishes elsewhere in the space. For outdoor settings, floor mounted shower columns are made from 316 grade stainless steel and offered in Brushed or Polished Stainless Steel. A playful streak runs through the palette, yet the geometry remains disciplined, leaving designers plenty of scope to use colour boldly or keep the specification more restrained.

BASINS

184 MARBLE
187 COMPOSITE STONE
188 BAGNOQUARTZ

| Bristol

Specified across hotels, restaurants and residential projects, BAGNODESIGN basins are chosen for distinctive form, material quality and durability. The European selection moves through natural marble, composite stone and handcrafted BAGNOQUARTZ, from wall mounted and semi-recessed models to countertop and freestanding pieces. Let the material lead the room: pick up the veining of Arabescato Corchia or Calacatta Viola in neighbouring surfaces, echo terrazzo or concrete through the Bristol composite stone basins, or set a Matt White or Matt Black BAGNOQUARTZ form against more richly figured stone and tile.

The various marbles used have been chosen for their strong concentration of fossils and as they are a purely natural product, there will always be the presence of different variations of veins, colours and shades, as well as micro-cracks and small holes. This gives each piece the characteristic of being truly unique.

The hygiene flush time interval can be easily adjusted using the remote control. Position the remote control approximately 8 cm from the tap sensor and ensure it is aimed directly at the sensor window. Press the "+" or "–" button under the time setting to modify the flushing interval. The tap sensor indicator light will flash to confirm the selected setting: one flash indicates the system has entered automatic flushing debugging mode, two flashes confirm a 12-hour interval, three flashes indicate a 24-hour interval, and four flashes confirm a 48-hour hygiene auto-flush interval.

KITCHEN

228 BAGNODESIGN KITCHEN MIXERS
231 POT FILLER
232 BYSTRO KITCHEN MIXERS

| M-Line

One of the hardest working fittings in the kitchen, the mixer has to earn its place every day. BAGNODESIGN's European selection runs from single hole models to 2, 3 and 4 hole configurations, many fitted with pull out sprays or swivel spouts. Revolution adds a wall mounted anti twist pot filler with a generous 530 mm swivel spout. Studio 316 and EX316 introduce the cool precision of 316 grade stainless steel, and Studio 316 adds a neat point of colour through interchangeable Armour handle accents. It is a handsome, purposeful selection that gives everyday utility a more polished air, with the interest found in useful detail, proportion and the way each fitting is handled.

FLUSHING SOLUTIONS

- **More Space**: Since concealed cisterns are built into the wall, they free up a considerable amount of bathroom space that would otherwise have been taken up by the cistern.
- **State-of-the-art technology and durability**: The range of concealed cisterns boasts high-tech working parts to ensure trouble-free operation.
- **Design freedom**: Homeowners and designers can pair their choice of actuator or flush plate and wall-hung or floor-standing toilet pan to perfectly complement their bathroom's particular style and design.
- **Easy to clean and hygienic**: Concealed cisterns and wall-hung WC pans provide the ideal easy-to-clean and optimum hygiene solution – no obstacles to clean around or cisterns to clean under.
- **Good for the environment**: All cisterns contain a dual-flush mechanism, helping to reduce running costs by saving water – using as little as two litres of water for a half flush.
- **Noise reduction**: Since the cistern is built into the wall, any noise created by the process of flushing is significantly reduced, making this an ideal solution for en-suite bathrooms. This is also a key in any hospitality requirement.
- **Strength**: All cistern frames are designed and built to support up to 400 kg in weight.
- **Warranty**: All cisterns come with an impressive 10 year warranty.
